

## Trifluoromethyl substituted aromatic compounds

| Product Name  | Structural Formula | Typical Properties                                | End Uses                         | Remark |
|---|--------------------|---|----------------------------------|--------|
| <b>TFMP</b><br>2'-(Trifluoromethyl)<br>propiophenone<br><br>CAS No. 16185-96-9<br>MITI No. —          |                    | Appearance: Colorless liquid<br>Assay: 99.0% Min. | Intermediate for Pharmaceuticals | C      |
| <b>TFAP</b><br>2'-(Trifluoromethyl)<br>acetophenone<br><br>CAS No. 17408-14-9<br>MITI No. —           |                    | Appearance: Colorless liquid<br>Assay: 99.0% Min. | Intermediate for Pharmaceuticals | R      |
| <b>TFCP</b><br>1-Cyclopentyl-2-<br>(trifluoromethyl)benzene<br><br>CAS No. 1206125-14-5<br>MITI No. — |                    | Appearance: Colorless liquid<br>Assay: 99.0% Min. | Intermediate for Pharmaceuticals | R      |
| <b>TFCH</b><br>1-Cyclohexyl-2-<br>(trifluoromethyl)benzene<br><br>CAS No. 13376-27-7<br>MITI No. —    |                    | Appearance: Colorless liquid<br>Assay: 98.0% Min. | Intermediate for Pharmaceuticals | R      |
|   |                    |   |                                  |        |
|   |                    |   |                                  |        |
|   |                    |   |                                  |        |
|   |                    |   |                                  |        |
